

For immediate release

London BioScience Innovation Centre (LBIC) BECOMES A ONE NUCLEUS PARTNER

13th October 2011

LBIC and One Nucleus have formed a strategic partnership, to offer a range of membership benefits to LBIC's client companies.

As One Nucleus members, LBIC clients will be able to access a range of networking and training opportunities and will be able to take advantage of the One Nucleus group purchasing scheme.

Both LBIC and One Nucleus are committed to playing an active and supportive role in assisting in the success of life sciences companies in the London area.

Ken Larkin, Chief Executive of LBIC commented, "LBIC was a founding member of the London Biotechnology Network, now part of One Nucleus, and is a natural collaborative partner. Shared goals and high level of trust mean that this partnership will provide real commercial benefits for our client companies both now and in the future".

Harriet Fear, CEO of One Nucleus said, "Our Partner Programme is a new initiative and we are delighted that LBIC is becoming a Partner. The Partner Programme is our new bespoke service, whereby we tailor a package of support to the needs of the organisation, with a view to supporting them with specific requirements."

Notes to Editors:

The London BioScience Innovation Centre (LBIC) provides a focus for life sciences activity in the UK capital, offering laboratory and office facilities of an exceptionally high standard.

Owned by the prestigious Royal Veterinary College, LBIC is home to over 40 biotechnology and life science companies in central London, including small start-ups, more established UK companies and overseas subsidiaries.

LBIC's location is second-to-none; just a short walk from St Pancras International, Eurostar services and the site of the new Francis Crick Institute. The Centre attracts biotechnology, life science product and diagnostic companies, contract research organisations, medical device companies and service providers.

One Nucleus

Established in May 2010, One Nucleus is the result of the merger of ERBI and London Biotechnology Network. One Nucleus is a not-for-profit membership organisation for international life science and healthcare companies and the largest of its kind in Europe. The company is based in Cambridge UK and London, at the heart of Europe's largest cluster. The 450 members include pharmaceutical, biotech, medical device and diagnostic companies and associated technical and commercial Service Providers.
